Portfolio: <https://portfolio-areeb-ng.vercel.app>

Computer Science graduate and MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in developing REST APIs, JWT authentication, role-based access control, real-time applications using Socket.IO, database management with MongoDB/Mongoose, and responsive React interfaces. Built projects including a full-stack e-commerce platform, real-time trading applications, and a role-based Job Portal. Focused on writing clean, maintainable code and building practical applications that are easy to use and scale.

Work Experience

Tesseract Innovations

Frontend Engineer Intern | January 2026 – April 2026

- Developed a full-stack e-commerce website with Google authentication, Stripe payment integration, and product management features such as adding, updating, deleting, and viewing products using admin dashboard.
- Built a real-time trading interface using WebSockets to show live data updates.
- Built modern and responsive dashboard interfaces using React.js, focusing on clean design and easy usability.
- Connected the frontend with REST APIs to fetch and display dynamic data.
- Used modern React features like Hooks and a component-based structure to build maintainable applications.
- Created reusable UI components that work well on different screen sizes and devices.
- Managed application data and state using Redux.

TECHNICAL SKILLS

- React.js, JavaScript (ES6+), TypeScript, API Integration, Sockets, React Hooks, React Router, Redux, DOM Manipulation, HTML5, CSS3, SCSS, Tailwind CSS, Material UI, Responsive Design.
- Node.js, Express.js, RESTful API Development, Error Handling
- MongoDB, Mongoose, MySQL
- Data Structures & Algorithms, Asynchronous Programming, Object-Oriented Programming (OOP).
- Git, GitHub, Debugging, Postman, Chrome DevTools

PROJECTS

Job Portal

- Built a role-based Job Portal using Node.js, Express.js, MongoDB, and Mongoose.
- Implemented secure authentication using JWT, HTTP-only cookies, password hashing, protected routes, and role-based access for candidates, recruiters, and admins.
- Developed recruiter company management, including an admin approval and rejection process before recruiters can create jobs.
- Built job management features such as creating, updating, deleting, searching, filtering, pagination, and managing job status.
- Developed the complete job application workflow, including resume uploads, application status updates, withdrawal, and preventing duplicate applications.
- Created admin APIs to manage users, companies, applications, and dashboard statistics.
- Added in-app and email notifications for new applications, application status updates, and company approval or rejection.

Full-Stack E-Commerce Web Application

- Built a full-stack e-commerce application using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication with Google login/signup and Stripe payment integration.
- Developed shopping cart functionality and an admin dashboard for creating, updating, deleting, and managing products and orders.
- Integrated REST APIs between the frontend and backend and used Cloudinary for image storage.

LPMM Poly Market Trading

- Created the frontend of a real-time trading application using React.js and Socket.IO to display live market data and instant updates.
- Designed a responsive and easy-to-use interface while handling real-time data smoothly.

FS Insurance LLC

- Built a modern and fully responsive insurance website using React.js.
- Added smooth animations and transitions using Framer Motion to create an interactive user experience.
- Focused on clean, professional design and responsive layouts across different devices.

Dashboards

- Built multiple dashboard frontend applications using React.js.
- Added interactive charts using React Charts to present data clearly and visually.
- Created clean, responsive, and easy-to-use interfaces for working with different types of data.

EDUCATION

- **Bachelor of Computer Science:** Sindh Madarsatul Islam University (SMIU), 2021 – 2025
- **Pre-Engineering:** SRE-Majeed College, 2018 – 2020
